- *One person disagreed that the agenda of each online meeting is shared before and the partnership is aware of the aim of the meeting*
- *One person disagreed when asked if the leader sets up the meeting with enough time in advance*

*Additionally, other comments and recommendations shared by the partners with regards of this matter were the following:*

- *Meetings are effective and useful*
- *Using doodle or scheduling meetings for the next 6 months is suggested*

# Coordination online meeting

## Quality report of 2023:

*We have to highlight that all the partners have manifested an **overall satisfaction with the online coordination meetings** carried out during the year 2023. We can see there is a strong connection between the online meetings and both the communication between the partners and helping the project's objectives, as the partners evaluated almost in the same way both questions.*

*Other comments and recommendations shared by the partners:*

- *We need a little bit more **vision** in our meetings and not just limit in deliverables.*
