2021-1-RO01-KA220-HED-000032258

FIRST YEAR WEBINAR

Pythagoras Project (Erasmus + KA220-HED – Cooperation partnership in higher education – 2021-1-RO01-KA220-HED-000032258) is close to finish its first year and we are proud to present our First Year Webinar.

With the focus on our work plan, this webinar will present the results and outputs obtained, but also the reflections and roadmap for the next goals and challenges.

Organized in three thematic work package, PYTHAGORAS project strives to develop policies that will make learning Mathematics more inclusive, efficient, enjoyable and real, connecting Mathematics teaching with real life cases linked to the students' fields of study.

PYTHAGORAS is a proposition to the future of the Higher Education from teaching within large lecture rooms to a more personalized teaching & learning approach.

All project outcomes and activities will be tailored to address the prerequisites of the partner institutions for undergraduate students regarding their fundamental mathematics background. These prerequisites will be checked from all aspects: (1) mathematical content, (2) mathematical processes, (3) views about the nature of mathematics, and (4) personal characteristics of students & teachers (personal – and academic ones).

FIRST YEAR WEBINAR

Dates

Day 1: Monday 16th January

Day 2: Monday 23th January

Time: 16:00 - 17:30 CET

Session management with Google Meet by ULL.

Day 1: Monday 16th

WP1: Toolbox for trainers and students (ULL+SIBIU): Toolkit 1 (SDG) - 2 (ICT)

WP2: Learning scenarios and guide for gamifying online and hybrid mathematics education at university level (AAU)

Day 2: Monday 23th

WP1: Toolbox for trainers and students (ULL+SIBIU): Toolkit 3 (Mini-PBL) + Applying PBL for students at risk

WP3 Design and Developing the Formative Assessment Software (integration of stack into LMS) (KAU).
